

JUDGE'S LONG SENTENCE.

Will Bear Reading Until It Is Fully Understood.

The following long sentence, relating to the domain of corporation property, is from an address recently delivered by Judge Peter S. Grosscup of Chicago before the Ohio State Bar Association:

"When the deeper judgment of the Nation is reached; when the vested interests of this country come to see that their greatest security lies in having all about them a neighborhood of honest men—a proprietorship that reaches out and out until, carrying reasonable security, it is within the reach of all; when the men who toll for wages, without abating their appreciation of their present protective agencies, come to actually wish for an individual share in the country's property; when the country wakes up to the consciousness that benevolence is not the only thing that is human; that just dealing is not the only thing that is human; but that individual ambition to get on in life is human also; that the wish for a career is human; that individual independence is human; that some share in the world's inheritance from nature is human; when the spirit that inspired the pre-emption and homestead laws—peopleing the domain that fell to our fathers—revives in us, dealing, as we have to do, with the larger and more difficult domain that has fallen to us; when the public mind and heart have been lighted up, ways will be found, abundant ways, to infuse into this new property domain of the Republic, even though embodied in corporate form, the widespread personal interest and individuality that alone gives to property its fullest utility as an agency for good, and alone saves to private property its place as one of the republican institutions of the country."

Especially for Women.

Champion, Mich., July 24th.—(Special.)—A case of special interest to women is that of Mrs. A. Wellett, wife of a well known photographer here. It is best given in her own words.

"I could not sleep, my feet were cold and my limbs cramped," Mrs. Wellett states. "I had an awful hard pain across my kidneys. I had to get up three or four times in the night. I was very nervous and fearfully despondent."

"I had been troubled in this way for five years when I commenced to use Dodd's Kidney Pills, and what they caused to come from my kidneys will hardly stand description."

"By the time I had finished one box of Dodd's Kidney Pills I was cured. Now I can sleep well, my limbs do not cramp, I do not get up in the night and I feel better than I have in years. I owe my health to Dodd's Kidney Pills."

Women's ills are caused by Diseased Kidneys; that's why Dodd's Kidney Pills always cure them.

From Ocean Depths.

The sea around the shores of Greece is full of treasures. Some time ago the divers brought up statues lost when a ship which was taking them to Rome was wrecked over 2,000 years ago. Later the relics of the battle of Navarino, fought in 1827, were fished up and a number of old bronze cannon, swords, guns and pistols have also been recovered from the wrecks of Turkish and Egyptian ships.

Little May—My sister got a nice pearl from an oyster. Little Ethel—My sister says she got a big diamond from a lobster.

NAMES BEST DOCTOR

MR. BAYSON PUBLISHES RESULTS OF VALUABLE EXPERIENCE.

A Former Pronounced Dyspeptic He Now Rejoices in Perfect Freedom from Miseries of Indigestion.

Thousands of sufferers know that the reason why they are irritable and depressed and nervous and sleepless is because their food does not digest, but how to get rid of the difficulty is the puzzling question.

Good digestion calls for strong digestive organs, and strength comes from a supply of good rich blood. For this reason Mr. Bayson took Dr. Williams' Pink Pills for the cure of indigestion.

"They have been my best doctor," he says. "I was suffering from dyspepsia. The pains in my stomach after meals were almost unbearable. My sleep was very irregular and my complexion was sallow. As the result of using eight boxes of Dr. Williams' Pink Pills, about the merits of which I learned from friends in France, I have escaped all these troubles, and am able again to take pleasure in eating."

A very simple story, but if it had not been for Dr. Williams' Pink Pills it might have been a tragic one. When discomfort begins with eating, fills up the intervals between meals with pain, and prevents sleep at night, there certainly cannot be much pleasure in living. A final general breaking down must be merely a question of time.

Mr. Joseph Bayson is a native of Aix-les-Bains, France, but now resides at No. 2489 Larkin street, San Francisco, Cal. He is one of a great number who can testify to the remarkable efficacy of Dr. Williams' Pink Pills in the treatment of obstinate disorders of the stomach.

If you would get rid of nausea, pain or burning in the stomach, vertigo, nervousness, insomnia, or any of the other miseries of a dyspeptic, get rid of the weakness of the digestive organs by the use of Dr. Williams' Pink Pills. They are sold by druggists everywhere.

Proper diet is, of course, a great aid in forwarding recovery once begun, and a little book, "What to Eat and How to Eat," may be obtained by any one who makes a request for it by writing to the Dr. Williams Medical Co., Schenectady, N.Y. This valuable diet book contains an important chapter on the simplest means for the cure of constipation.

It is easy to contract a cold, but it's still easier to expand one.

BIG OIL TANKS BURN

LARGE LAKES OF BLAZING OIL.

Millions of Barrels of Oil Destroyed at Humble, Texas—Twelve Lives Reported Lost.

Humble, Tex., July 25.—Fire started Sunday in a tank belonging to the Texas Oil Company, caused by lightning striking the oil. It was held in check for several hours, but finally spread over a large area.

Covering an area of three-quarters of a mile square, with a great canopy of smoke covering two square miles, the oil tanks of the Texas company continue to boil and bubble under the great heat of the burning oil, the fire having burned since Sunday.

When it can be extinguished no one guesses. Certainly not until it has burned all of the oil in the eleven big tanks, which held 2,500,000 barrels when lightning struck them Sunday afternoon.

The loss of life in the oil fields as near as can be ascertained is twelve, but no names can be ascertained. The company declines to make any estimate of its loss or to give out any insurance figures, but oil men place the loss at 2,500,000 barrels of oil, valued at \$562,500; pumping plant, damage to tanks, mules, etc., at \$25,000 or more. It is reported that the fire has spread to the tanks of the Gulf company. The property loss, therefore, will be enormous.

There are hundreds of homeless people, many of whom are only awaiting a train to go to Houston for shelter. They were living in tents and shacks in the oil field and fled for their lives to the town, away from danger. They left all their belongings and they have been destroyed by fire, which runs out toward the oil field, though it has not been communicated to any of the derricks or wells.

Shortly after the big tank began to blaze 200 workmen with seventy-five mules were hurried to the place to throw up earthen embankments to confine the fire to the tank where it originated.

Some of them mounted mules and got out, but at least forty of the mules balked and were cremated. Five negroes were seen to go down then and it is not believed possible they could have escaped.

Kaiser and Czar Meet.

Berlin, July 25.—The foreign office here is advised that a meeting between Emperor William and Emperor Nicholas took place early yesterday off the Swedish coast near the island of Bjorkoe.

The meeting of the two emperors took place on the initiative of Emperor Nicholas.

The prevailing idea is that the Russian Emperor desired an outside opinion from a ruler of his own rank on the internal situation in Russia. His invitation to Emperor William is regarded as being the result of friendship and confidence in him.

Although the meeting is considered as being of high importance for Russia, it cannot signify any change in Germany's policies toward Japan or Russia. Emperor William had not seen the Russian Emperor since the autumn of 1903, at Wiesbaden. The German Emperor went within easy distance of St. Petersburg because it would be impolitic for Emperor Nicholas to leave the country and visit German waters.

The meeting is a sequence to the correspondence that has been going on between the two emperors concerning peace in which Emperor William urged Emperor Nicholas to take steps toward peace.

Cabinet Will Not Resign.

London, July 25.—The government has no intention of resigning in consequence of Thursday's adverse vote. This was the gist of Premier Balfour's eagerly anticipated statement in the House of Commons yesterday.

Mr. Balfour, who was heartily cheered by his supporters on rising, tried the patience of his hearers somewhat by a long disquisition on how former administrations had ignored defeats similar to that of Thursday for resignation or dissolution and announced that the government did not propose either to resign or dissolve Parliament because of Thursday's occurrence.

The premier considered that it would be a grave evil if the tenure of ministers was made dependent on such votes as that of Thursday. He hoped the practice would never prevail of allowing a government united in itself and possessing the confidence of the majority of the House, to abandon its post merely in consequence of such a vote.

Taft Welcomed at Tokio.

Tokio, July 25.—The Hochi, Count Okuma's newspaper organ, to-morrow will publish a leading article welcoming the Taft party and gratefully recalling what the United States has been to the Japanese since the time of Commodore Perry—an unerring guide and friend. The policy of the United States toward Japan, the article will say, has been an unbroken record of kindly assistance, politically and commercially. In fact, in all departments of the progress, of modern Japan America's help is clearly traceable. Especially President Roosevelt's successful endeavor in bringing the peace plenipotentiaries together adds a memorable chapter to the already magnificent record of America's invaluable aid to Japan.

The paper regrets that the shortness of the party's stay will not admit of an adequate manifestation of the general feeling of gratitude and appreciation toward the government and people to which the distinguished party belongs. The Hochi article is typical of the feeling throughout the empire.

Earthquake in Mexico.

Mexico City, July 25.—Chilpancingo, capital of Guerrero, has experienced a sharp earthquake shock. The residents were much frightened, recalling the destructive earthquake in that city three years ago. The people remained in the open air, following the disturbance, fearing a repetition of the shock.

DANIEL LAMONT DEAD

CLEVELAND'S WAR SECRETARY

Dies Suddenly at His Home at Millbrook, New York, of Heart Failure.

Poughkeepsie, N. Y., July 24.—Daniel Scott Lamont, secretary of war during the second administration of President Cleveland, died suddenly at his home at Millbrook, Dutchess county, last night, at 9:15 o'clock. Heart failure was the cause of death.

Mr. and Mrs. Lamont were out driving yesterday afternoon and Mr. Lamont appeared to be enjoying the best of health. After dinner he complained of feeling ill, and Dr. Stewart of New York, who is a guest at the house, immediately went to his aid.

The physician diagnosed the case as an attack of heart failure and in spite of heroic treatment Mr. Lamont passed away within half an hour. At his death were Mrs. Lamont and two daughters, Frances and Bessie. Several guests at the Lamont home were also present when the end came.

Daniel Scott Lamont came prominently into public view during the first term of President Cleveland.

When Grover Cleveland was governor of New York Dan Lamont visited his office daily in the capacity of newspaper reporter. The governor recognized the alertness of the newspaper man. He found by experience that he could entrust him with important state secrets, and a strong friendship developed which continued throughout Mr. Cleveland's public career and in subsequent private life.

When Grover Cleveland was elected President, Lamont was appointed his private secretary, and when Mr. Cleveland was chosen President for the second time Mr. Lamont was taken into his Cabinet as secretary of war, a position which he filled with credit.

In the same Cabinet was William C. Whitney, and Lamont and Whitney became close friends. Later Mr. Whitney became interested in New York and Brooklyn street railroad building, and Mr. Lamont's services were engaged in the management of those lines. He was eminently successful as a business man, and as the years went by accumulated a fortune said to be in the millions. Later Mr. Lamont became interested in steam railroad management with James J. Hill, and for the last five years had been vice president of the Northern Pacific Railroad Company, with offices in New York City.

Daniel S. Lamont was born in Cortlandville, New York, February 9, 1851, the son of John B. and Elizabeth L. Lamont. He graduated at Union College and entered journalism at Albany, New York.

Sagacious politicians other than Grover Cleveland early learned to trust Mr. Lamont. He stood close in Mr. Tilden's confidence and other leaders of his party conferred with him. He could keep secrets. But it was his unusual executive abilities which most had to do with his career. He was naturally a manager of men and large affairs. He would have been successful in any line of business.

Sultan's Narrow Escape.

Constantinople, July 23.—At 1 p. m. Friday a bomb which was intended to blow up the Sultan fell short and exploded about thirty yards from his majesty. The latter was at the time on the top step of the flight of stairs leading from the mosque.

A panic immediately seized the Sultan's entourage and the court dignitaries rushed up and implored Abdul Hamid to remain in the mosque.

The Sultan, however, insisted on proceeding and entered his carriage with a calmness not usually attributed to him, and picking up the reins, drove himself to the Yildis palace, amid the cheers of the admiring officials.

The explosion was heard as far as the Pera quarter. Besides the soldiers in the vicinity, several horses were killed, carriages were smashed into matchwood and the windows of the pavilion reserved for the diplomatic corps were broken.

The commission appointed to inquire into the attempt on the life of the Sultan has ascertained that the explosion of the bomb caused the death of twenty-four persons and wounded fifty-seven. In addition, fifty-five horses were injured.

The preliminary investigations tend to show that the outrage was committed by two Hungarians.

Suicide While Insane.

Denver, Colo., July 24.—An extremely sad death was that of Miss Mary Sprague, daughter of Wellington G. Sprague, of the Sprague Investment Company, whose dead body was found in a barn in Montclair yesterday morning. Miss Sprague had been confined for several months in a sanatorium at Montclair undergoing treatment for acute melancholia which developed shortly after the death of her mother last year. Miss Sprague escaped the vigilance of the attendants at the sanatorium yesterday morning. Clad only in her night robe, she left the institution by way of a window, which was supposed to have been securely fastened. She escaped about 6 o'clock. Her absence was discovered at 6:30.

A search for the missing patient was at once begun and at 8:30 o'clock the body was discovered in the barn at East Twelfth avenue and Vermont street, a half block from the asylum. It was swinging from a beam and life was found to be extinct.

Japanese Navy at Work.

London, July 24.—The correspondent of the Daily Telegraph at Tokio forwards a dispatch from the Japanese correspondent of that paper at Moji, Japan, telling of a daring reconnaissance of a Japanese squadron in Posselt Bay on July 14th.

Three days later the Japanese vessels occupied Russnapan, where there is a vast and splendid harbor. Some of the vessels, the correspondent says, ran right inside Posselt bay, which is of great strategical value.

On a Wooden Leg.

In Massachusetts, at the town of Ware, there is a hen with a wooden leg. While a chicken, a stone thrown at the bird caused the removal of its leg. The owner thereof had a wooden substitute fitted, and on this the hen has stumbled about the farmyard. She uses it as a means of defense and can easily stand on it while scratching for food with the whole leg. At night, when roosting, she allows the wooden leg to hang down behind the perch.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER of ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

(Sold only in 1 lb. packages. Lion-head on every package.)

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.
